MIDI Smart

The TerraTec MIDI SMART Keyboard is an affordable entry level keyboard that transforms your PC into a music workstation. It's convenient size means that the MIDI SMART can be used alongside your PC and save on valuable workspace.

A powerful MIDI Software (Steinberg's MusicStation *) is supplied with MIDI SMART to enable the user to record and playback up to 16 tracks of MIDI information. Each of these tracks are then fully editable using Steinberg's comprehensive range of edit pages and tools.

Technical Specifications:

- 49 keys = 4 octaves
- MIDI OUT for the MIDI cable to the sound module
- Status LED
- Key Lettering
- Input for 9 to 12 Volt, 500 mA power supply
- Battery Holder

Package includes:

- MIDI Smart
- Registration-/Guarantee Card
- Power Supply
- MIDI-KIT MIDI-cable (also compatible to standard soundcards, e.g. SoundBlaster™)

Bundlesoftware:

- Steinberg's MusicStation

MIDI Master PRO

The professional solution: The latest TerraTec MIDI keyboard provides 49 keys (normal size) with velocity sensitivity, pitch bend and modulation wheels, data entry slider and a backlight LCD-display. The master keyboard with a built-in MIDI interface can be connected to any PC with a MIDI interface or soundcard (MIDI-KIT connector cable included). Numerous MIDI functions like the control of reverb, chorus or panorama from the MIDI Master keyboard enables you to play creatively and compose your own pieces of music. All MIDI functions are very easy to operate. This is not all: The professional bundle software (Steinberg's MusicStation *) enables you to start at once. A sustain pedal can also be connected.

Technical Specifications:

- 49 keys (normal size) = 4 octaves (+6½ octaves via transposing)
- Velocity sensitivity, high quality keyboard
- MIDI Out-jack to connect to soundcards, keyboards, expander or other devices
- Connector for optional sustain pedal
- RESET (Panic-) Button; turns the MIDI MASTER PRO and connected MIDI-devices to its default settings
- OCTAVE + transposes the keyboard one Octave up (+3 ½)
- OCTAVE - transposes the keyboard one Octave down (-3)
- DEMO-Button; sends several demo songs via MIDI OUT
- MIDI CHANNEL selects the transmit channel (1-16)
- DATA ENTRY-Slider allows to adjust i.e. volume, aftertouch, reverb send, panpot and more
- 10 numerical keys
- PROGRAM + increases the soundnumber by 1
- PROGRAM - decreases the soundnumber by 1
- ENTER-Key (with LED)
- Backlit LCD-display
- Power input for 9 to 12 Volts, 600 mA
