What is digital Radio?

Radio via antenna, but DIGITAL! Digital radio begins where FM radio has its limits. It offers excellent sound quality, a comprehensive program range and fascinating supplementary services. Many new formats can be received by DAB+. It will be particularly 3 programs of german radio, but also programs such as 90eleven with his broadcast German Football League-Radio. In addition, there are radio stations which are only receivable with a digital radio. An enormous enrichment for listeners! BUT, You can also listen to your current favorite programs, even in CD sound quality. All this features offers the NOXON A540+ with excellent reception and sound quality.

Internetradio

Receive online music and information from the whole world. Listen to something other than the monotonous programming of your local radio stations for a change. With over 14,000 stations worldwide, the NOXON A540+ offers endless international variety. For example, you can listen to rock music from the USA or pop music from Africa, the news from Tokyo or comedy from Australia, the charts from Germany or podcasts from around the world. To make picking a station easy, everything is sorted by country and genre.

The NOXON A540+ offers the latest technology, but it is very easy to operate. The control dial with the push- function takes you through the various settings and stations. The ergonomic rocker-button brings you back. So you can come in seconds from Germany to Brazil or where ever the musical journey will go. You can enjoy DAB+, internet radio, FM, music from the hard disk, podcasts, audiobooks in the best hi-fi quality - whatever you want to listen to, with the NOXON A540+ you will definitely receive everything.
