CINERGY 200 USB

TV Tuner & Video Recorder

Analog TV via USB 2.0

The Cinergy 200 USB lets you watch antenna and broadband cable TV broadcasts on your desktop or notebook PC and digitize your videos. For all its features, this mobile TV solution is no larger than a pack of cigarettes and weighs a mere 65 grams. It connects directly to your USB2.0 port, which also serves as its power supply — a separate AC adapter or batteries are not required.

Fully video-enabled

The Cinergy 200 USB uses TV signals from your antenna or broadband cable. It can also easily process video signals from your VHS recorder, DVD player or camcorder via its composite or SVHS connector.

Good hardware isn't everything — that's why the Cinergy 200 USB comes with an extensive software package for convenience in watching videos or recording programs. For example, timeshifting will revolutionize your viewing habits: interrupt programs whenever you like and continue watching them later from where you left off.

Timer-controlled recording is also no problem. Determine the format yourself: the Cinergy 200 USB supports virtually all common video codecs such as DivX, letting you minimize space requirements when archiving films on your hard drive or on CDs. The included video recording software also lets you create video CDs or DVDs with just a few clicks of the mouse.

All inclusive

The Cinergy remote not only lets you channel-hop with ease and enjoy TV programs from the comfort of your sofa, it also controls a wide range of other multimedia applications. With the included headset, you can also watch TV anywhere on your laptop.

Technical Details

- **Desktop/laptop:** USB 2.0 port, 480 Mbps Data transfer rate
- **Inputs:**
  - S-video (NTSC/PAL)
  - Composite video (NTSC/PAL)
- **Output Ports:** Stereo audio
- **Infrared remote control**
- **Digital recording:**
  - DVD (720x480-NTSC, 720x576-PAL)
  - VCD (352x240-NTSC, 352x288-PAL)
  - Supports DivX and virtually all other video codecs
- **Power supply:** via USB
- **Power consumption:** 5V DC, 480 mA (USB Bus Powered)
- **Dimensions:** 7.5 x 4.8 x 2.3 cm (2.9 x 1.9 x 1.0 inch)
- **Weight:** 65 kg

Software

- TerraTec Cinergy software und bundle software

System requirements/recommendation

- Windows 2000/XP
- USB 2.0 interface
- Pentium III, 800 MHz or higher
- 128 MB RAM
- CD-ROM drive (to install drivers/software)
- CD burner (to create a VCD/miniDVD) or DVD burner (to create a DVD)

Art.No.:	063000
EAN-Code:	4017273663005
Warranty:	24 Months
