- Codec set for HDTV included
- USB 2.0 compatible
- Analogue video and stereo audio inputs
- Portable aerial with magnetic base
- Remote control

Incl. TerraTec Home Cinema software:

TerraTec Home Cinema turns television on the computer into an experience. Whether internal or external TV card, whether digital (DVB-T, DVB-S, DVB-C) or analogue (antenna, cable) – the possibilities of turning your computer into a television are endless. Use a PCI card and a USB box, for example, to record a program and simultaneously view another one or record several broadcasts. All TerraTec TV cards can be freely combined for this purpose.

In addition to the usual functions, such as time-shifted television, electronic program guide (EPG) and digital video recorder, the TerraTec Home Cinema offers a few innovations: With remote programming via the Internet, the current television program can be conveniently searched and a recording can be programmed with a click of the mouse. For this purpose, TerraTec Home Cinema accesses the established service of tvtv.de – an annual subscription is included in the purchase price (download: 60-day version). The computer wakes up at home from standby or the idle state on time and the desired broadcast automatically lands on the hard disk.

Even easier are recordings using the electronic program guide during the broadcast – simply press the corresponding button on the remote control. No matter how you plan your recordings: They can already be viewed while the recording is still running!

More new functions of the TerraTec Home Cinemas include: Automatic optimization of the aspect ratio, recording of Dolby Digital (AC3), video text and subtitles, support of DVB radio and customizable lists of favorites (genre, location), multi-tuner support and constantly available help functions as well as the advertising editor Cut! which allows for easily cutting advertising blocks – easier than ever before.

Slim and resource-saving, intuitive operation, yet very extensive – the TerraTec Home Cinema fully exploits the possibilities of television on the computer!

CINERGY HTC USB XS HD

Technical Details

Features

- DVB-T (DTT, Freeview), DVB-C and analogue TV and radio receiver
- Remote control and antenna included
- Breakout cable video input/audio input
- Video Codecs: MPEG 2, MPEG 4 / H.264 for HD
- Audio Codecs: AC3 Dolby Digital, MPEG Audio
- Digital video recorder
- EPG, Teletext and TimeShifting
- Picture in Picture within a transponder
- Browser TV
- USB 2.0 compatible
- Power supply via USB

Infrared remote control

- 48 buttons
- Batteries included
- Weight: 82 g

Technical datas

- Plug'n'Play
- Voltage: 5V DC (USB bus powered)
- Current: 480mA
- Housing colour: white/grey
- Dimensions: 80 x 30 x 15 mm
- Weight: 30 gramm

Software

- TerraTec Home Cinema
- MAGIX Movies on DVD TV Edition
- Codec set for HDTV

System requirements

PC/Netbook/Notebook

- Min. Windows Vista SP1 or Windows XP SP2 or Windows 7
- 2,0 GHz Intel or AMD CPU or Intel Centrino CPU
- Netbook with Intel Atom CPU
- 512MB RAM (1024MB recommended)
- USB 2.0 port
- Analogue or digital terrestrial TV reception (DVB-T, Freeview, TNT) or digital TV reception via cable
- Internetconnection for technical support

System recommendation for HDTV reception

- Dual Core Intel or AMD CPU for HDTV decoding
- 1024 MB RAM (Win XP) 2048 MB RAM (Win Vista)
- Graphics card with hardware acceleration for HDTV
- Terrestrial digital TV reception (DVB-T, Freeview, TNT) with HD resolution

Scope of delivery

- Cinergy HTC USB XS HD
- Portable aerial with magnetic base
- MCX to IEC adapter
- Breakout cable video input/ audio input
- Infrared remote control incl. batteries
- USB 2.0 extension cable (0.3m)
- Installation/software CD-ROM
- Quick reference
- Service card
- Registration card
