

CINERGY T USB XE

The compact TV USB Stick!

- USB DVB-T receiver
- Compatible to 2.0
- Power supply via USB
- Inclusive DVB-T antenna

Inclusive TerraTec Home Cinema software:

The Cinergy T USB XE receives digital TV signals, yet is no larger than a USB memory stick! Just connect the ultra-compact TV tuner to a notebook or PC via a USB port – and in a flash you're able to view the digital programs transmitted via DTT (Freeview). Regardless of where you are, your TV card is there with you. At a stationary PC at home you can receive programs using your standard roof aerial, and away from home you simply connect the handy tuner to your notebook and use the included DTT compact aerial. *(See Notes on DTT in the UK). Even in areas where signal is low the stick convinces you of a proper reception.

You can also use the Cinergy T USB XE as a digital video recorder for recording digital terrestrial TV programs with full MPEG 2 support. The electronic program guide (EPG) helps you accurately navigate through the large number of stations and activate your recording timer. The integrated videotext function makes sure you're excellently informed even beyond the TV program.

And if you have to interrupt a program for some reason, the TimeShifting function saves the part you miss on the hard disk. That means you can simply resume viewing later at the desired point.

DTT, digital video recordings, EPG, TimeShifting and Videotext – only the Cinergy T USB XE offers so many functions in such a small device!

CINERGY T USB XE

Technical Details

Features

- Digital TV for notebooks and PCs
- Digital video recorder with full MPEG2 support
- Scheduled recordings and time shifting
- EPG support
- Teletext
- Compatible to USB 2.0
- Power supply via USB

System requirements

- Intel Pentium / AMD / Centrino certified CPU 1,4 GHz or higher
- 512 MB RAM
- 1 available USB interface
- Audio hardware with DirectX support
- CD-R/DVD-R-drive
- Graphics board with DirectDraw drivers and video overlay support
- Terrestrial digital TV reception (DVB-T, Freeview, TNT)
- Microsoft Windows® XP with Service Pack 2 / Vista

Software

- TerraTec Home Cinema

Scope of delivery

- TerraTec Cinergy T USB XE
- Portable aerial with magnetic base
- Installation/software CD-ROM
- Quick Setup Guide

***Important notes on Digital Terrestrial TV reception in the UK:**

Please ensure you can receive the Digital Terrestrial Television (DTT) service in your region. Check here for coverage: <http://www.dtg.org.uk/retailer/coverage.html>

The Terratec CINERGY Digital TV products require that you use a high-gain roof antenna to enable and enjoy reliable Digital Television reception throughout the UK. The portable antenna that we provide should only be used and relied on in areas where the Digital TV signal reception is optimal. (Some countries or regions can have different reception conditions, and the environment in which you are viewing can be affected by various factors: Proximity to the Digital TV transmitter, heavy/ tall building constructions and thick walls or ceilings.)

Portable or mobile Digital TV reception in cars, trains or airplanes etc. is normally not supported.

The UK Digital Terrestrial TV coverage is changing and improving all the time as new digital transmitters are erected. For more general information on the switchover from analogue to Digital Terrestrial Television coverage in your region, please check here: <http://www.digitaluk.co.uk/site/index.html>
