

HomeArena MX 5.1: Your entry into the surround sound class

It doesn't matter whether you're into games, DVDs or musical perfection: the HomeArena MX 5.1 speaker system has everything you need for a successful entry into the surround sound class. Two front and two rear speakers, one center speaker and a powerful subwoofer in a wooden cabinet deliver crystal-clear audio with a total power output of 37 watts RMS. The integrated volume and tone controls let you tailor the sound perfectly to your taste. And if you ever need to keep it down, just use the separate headphone jack.

For traditional audio sources such as your stereo, use the system's virtual surround mode to enjoy your favorite CDs and movies with an impressive new spatial audio experience.

HomeArena MX 5.1 not only stands out with its audio qualities – with its elegant design, it also has a lot to offer visually.

A complete set of cables featuring RCA and jack connectors is included, as well as separate wall mounting brackets and an adapter for X-Box™, Playstation® and other game consoles.

Technical Details

Total Output Power: 37 Watts RMS

Subwoofer

- 1 x 4" (10,16 cm) Subwoofer
- 12 Watts RMS
- MDF cabinet with front bass tube
